- d. Mode
- e. Down

OPERATION

Safety

- Only use this product indoors. Not intended for outdoor use.
- Do not install this product in wet or moist areas.
- Only use the battery type specified in this manual.

Inserting batteries

- On the rear of the chassis is the battery compartment. Remove the cover and insert 6 x AA batteries according to the polarity markings. Once the 6 batteries have been inserted replace the cover.

On/off switch & remote control

- On the rear of the light, is the unit's on/off switch. Switch to the 'On' position to turn on the light. Once switched on, the light can now be controlled and operated using the remote.

The remote has 4 control buttons as per pointed out in the specifications section of this manual.

- On/off - switches the light on or off.
- Up - increases the intensity of the light making it brighter
- Mode - changes through the colour options available
- Down - decreases the intensity of the light making it dimmer/softer

Mounting

On the rear of the chassis is the mounting bracket. Fix a screw into the wall, but do not screw it in all the way, allow approximately 8mm for the mounting bracket to secure on.

Note: When securing the screw into the wall ensure the screw is fastened into the appropriate mounting accessory for the material it is being inserted to. For plasterboard it's recommended to use a hollow wall anchor, for masonry, a masonry wall anchor.

Always ensure the screw can hold the weight of the light before mounting.

Commercial Electric does not include under warranty, breakages/damage to the unit or mounting surface, due to poor mounting.

CONTENTS

- 6 x AA Alkaline batteries
- 1 x Instruction manual
- 1 x Remote battery (3V coin type, inside remote)
